Absolutely **NO** Ractopamine (Paylean) can be fed to hogs being exhibited at the Belmont School and Community Fair.

You and your parent or guardian will be asked to fill out and sign an affidavit stating that your hog has not been fed Ractopamine (Paylean).

If it is determined that your hog has been fed Ractopamine (Paylean) you will be responsible for ALL financial expenses incurred.

In addition, you and members of your immediate family will be banned for life from exhibiting all classes of livestock at the Belmont School and Community Fair.

This rule keeps us in compliance with our market buyers' requirements.

If you have any questions, please reach out to one of the Belmont Fair Board Members.

Belmont Ambulance Service

YOUR COMMUNITY NEEDS YOU!!!!!!

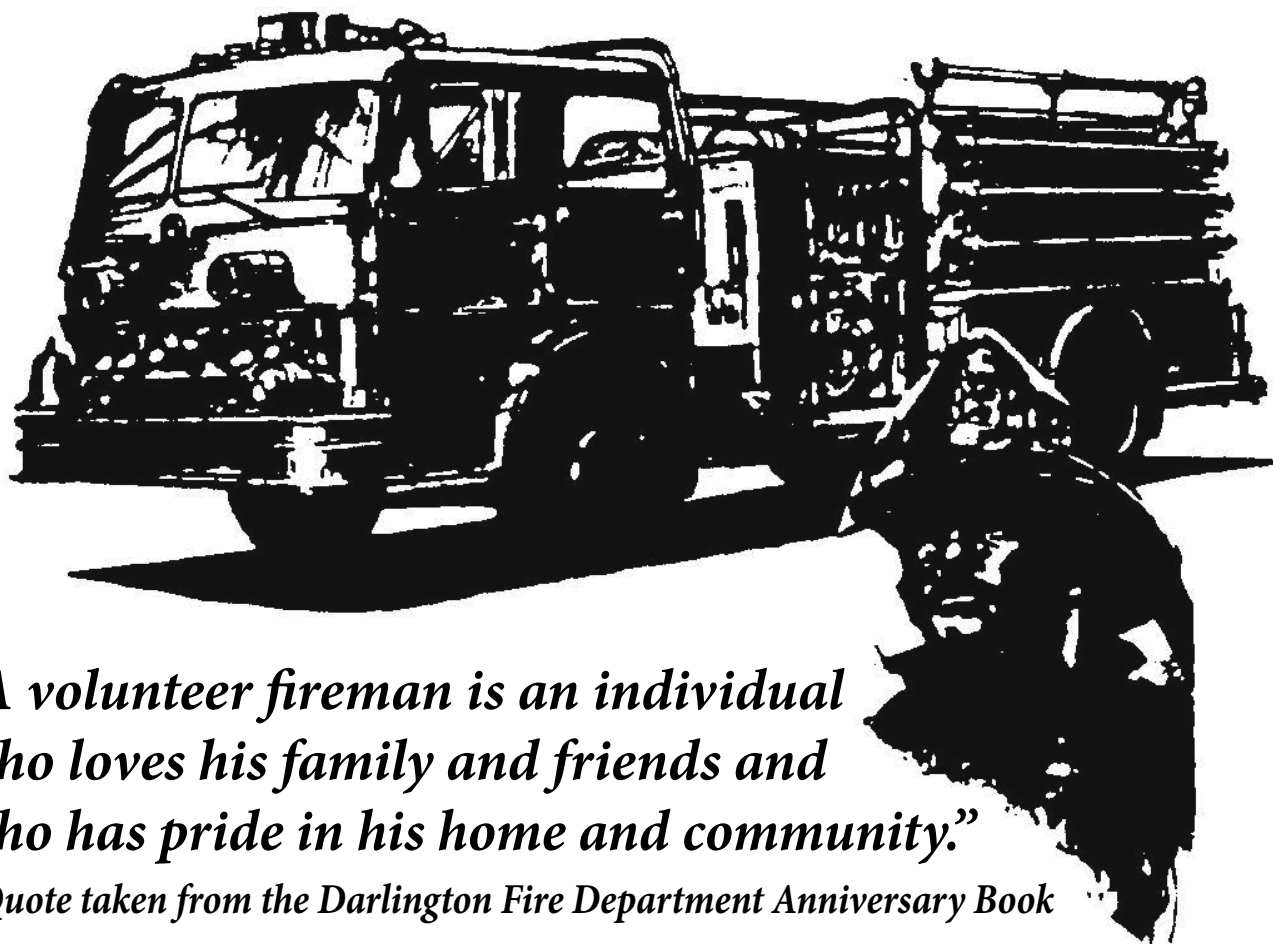

If not you, then please tell me who.

Do you want to keep an ambulance service in Belmont? If you answer yes then you need to also let us know who is going to join Belmont EMS to help with daytime coverage. Many of our daytime crew members have either retired or now have jobs outside of Belmont. Current staffing is working but is not sustainable for much longer, so again I ask: If not you, then please tell me who.

So, if you want to continue to have Belmont EMS respond when you call for help, please contact:

Chief Andy Myers @ 608-732-6079
Asst. Chief Brandon M. @ 608-574-5804

Firehouse Phone: 608-762-5495

“People who are willing to gamble with their life in behalf of another’s well-being, appear to have a special fiber woven into their personality which the average individual lacks. It is this very thing; a unique quality, viewed as a little reckless by some, (a lot heroic by others) that we observe in the Volunteer Firemen, hard at work as well as hard at play.”

“A volunteer fireman is an individual who loves his family and friends and who has pride in his home and community.”

If a fair or livestock exhibition lasts more than 24 hours, the sponsors shall appoint a licensed veterinarian to conduct a daily inspection of all livestock at the fair or exhibition. The veterinarian shall review all records and test results required under ATCP 10.87. If a fair or exhibition lasts less than 24 hours, all records or test results required by ATCP 10.87 shall be reviewed by a licensed veterinarian or by the show chairperson. Records shall include exhibitors name and address, identification of animals exhibited including number, type and description, documentation to show compliance with disease testing and other health requirements, and the livestock premises code, if any, of the premises from which the animals originate.

This is a summary of DATCP animal health requirements for exhibition only. These requirements may change due to animal disease emergence in Wisconsin or other states, for example, vesicular stomatitis in the western states. It is always advisable to check with the Division of Animal Health (608-224-4874) for the most recent health requirements when planning to exhibit animals. Animals meeting exhibition requirements may not meet all import or movement requirements for other purposes.

The fair and WDATCP have the right to make such tests and examinations as may be necessary to determine the disease status of any animal exhibited and to exclude or remove any animal afflicted with or suspected of being afflicted with a contagious or infectious disease. If at any time any animal shows evidence of a contagious or infectious disease, it shall be immediately removed from the exhibit and slaughtered or quarantined as directed by the department.

Refer to Facebook for updates.

PARASITES

Livestock infected with ringworm, warts, mange or scab may not be exhibited. Unless the Veterinarian in charge determines the ringworm lesions or warts are inactive and incapable of transmitting the disease, any livestock found with ringworm, warts, mange or scab shall be removed from the premises of the fair.

QUARANTINE

Livestock under quarantine by the department are not eligible for exhibition.

PENALTIES

Section 95.19 of the Wisconsin Statutes provided in part: "No person shall exhibit at any fair any animal afflicted with or exposed to any contagious or infectious disease."

It is a misdemeanor to exhibit animals contrary to this section. In addition, it is provided that any person violating this provision shall be liable to any other person who sustains damage by reason of such violation.

JUNIOR FAIR EXHIBITS

Junior Fair Exhibits are subject to the same requirements as for other livestock at any fair.

WISCONSIN SHOW REQUIREMENTS

Cattle (*Cattle originating from within Wisconsin*)

There are no test or health document requirements for Wisconsin cattle. However, fair management is responsible for maintaining records of persons who have exhibited at the fair, the livestock premises code, if any, and the identification of animals shown for 5 years. Acceptable forms of animal identification for breeding animals are (1) an official metal eartag, (2) a breed registration number, or (3) a breed registration tattoo, or (4) other identification approved by the department. For steers, either an official identification as listed for breeding animals or the eartag applied at weigh-in may be used. Entry blanks submitted and signed by exhibitors, including one of the forms of identification listed above will fulfill the exhibitor requirements. Refer to Facebook for updates.

Swine

Swine originating from within Wisconsin need a Wisconsin Intrastate Movement Certificate stating that the herd of origin was inspected on the farm within 30 days before the show and showed no signs of disease.

Sheep and Goats (*Sheep originating within Wisconsin*)

If sexually intact, sheep and goats need official identification at any age. If not sexually intact, sheep and goats need official identification if they are 12 months of age or older. Official identification includes scrapie ear tags or tattoos, USDA 840 tags.

Equin (*Equine animals originating from within Wisconsin*)

All equine animals shall be accompanied by documentation of a negative EIA test conducted the previous 12 months which clearly identifies the equine by registration number, lip tattoos or freeze brand, or a complete description of the equine. Documentation must either be an original laboratory report VS 10-11, a USDA-approved electronic test form, a Global Vet Link (GVL) equine infectious anemia test electronic form, or a certificate of veterinary inspection with the negative EIA results listed.

Poultry

All poultry and waterfowl must originate from flocks designated as U.S. Pullorum-Typhoid Clean or NPIP Affiliate flock and accompanied by a NPIP certificate or originate from a Wisconsin Tested Flock or Wisconsin Associate Flock and be accompanied by an enrollment certificate provided by the department certifying that they are a Wisconsin Tested Flock or Wisconsin Associate Flock. Sexually mature birds that do not meet these requirements may qualify with documentation of a negative test for pullorum-typhoid (and *Mycoplasma gallisepticum* for turkeys) conducted within 90 days prior to arrival at the exhibition, and be individually identified with a wing band or leg band. Turkeys that are not going directly to slaughter may not be commingled with other poultry. This may be accomplished by separate housing or controlling the air flow or placement and spacing to prevent movement of *M. gallisepticum* from other poultry to the turkeys. The fair veterinarian should make this decision.

Fur-Bearing Animals

Rabbits and other fur-bearing animals showing evidence of specific disease cannot be exhibited at any fair. If at any time any animal in this group shows evidence of a contagious or infectious disease, it shall be immediately removed from the exhibit and slaughtered or quarantined as directed by the Wisconsin Department of Agriculture Trade and Consumer Protection.

All fur-bearing animals exhibited may be subject to quarantine and slaughter if any infectious or contagious disease is discovered among any of the fur-bearing animals in the exhibit.

"It's All About The Dress"

One of the most viewed and talked about exhibits each year are the history entries. We all get to see once again some of the things from our lives/childhoods & each item tells a wonderful story.

Occasionally, historical family wedding gowns are exhibited and the story they tell touches our hearts & rekindles fond memories.

The idea to expand on that idea & display family wedding gowns emerged in time for the 2022 fair.

In that year & in the years that followed, a small group of volunteers worked together to display

18-20 family wedding gowns spanning generations.

The results were very well received with lots of positive comments. Plans are taking shape to do it again in 2025.

If you are interested in sharing your family wedding gowns, photos & stories, please let us know.

If there is enough interest, we will plan to do it again in 2026.

If you would like to volunteer to help continue this new tradition, we would really love your help.

PLEASE LET US KNOW.

Currently the committee includes:

Judy Nicholas, Barb Heins, Kay Austin, Margie Spensley,
and Laura Olthafer-Burns.

Contact any of us or send an email to
thedress.bscf@gmail.com.
